# How to make the most of Expected Progeny Differences-EPDs

Individual Data is provided as supplementary information.

Expected Progeny Differences (EPDs) are the most reliable evaluation of genetic difference between animals.

EPDs are the best estimate of an animals' own performance relative to contemporaries, performance of relatives and any progeny performance available within the herd as well as across herds within the breed.

**ACTUAL BIRTH WEIGHTS (BW)** - On all bulls when reported. BW EPD predicts calf size and calving ease.

**WEANING WEIGHTS (WW)** - Adjusted to 205 days of age. WW EPD predicts pre-weaning growth potential.

**YEARLING WEIGHTS (YW)** - Adjusted to 365 days of age. YW EPD predicts post weaning weight and overall growth potential.

**SCROTAL CIRCUMFERENCE (SC)** - Adjusted to 365 days of age. SC EPD Predicts testicular size and has a positive relationship to fertility.

**MILK**- Milk EPD is an indication of the number of pounds of weaning weight expected to be gained or lost due to the milking ability of a bulls daughters.

**TOTAL MATERNAL (TM)** - The total weaning weight expected from a bull due to the genetics transmitted for weaning growth plus milk.

**RIBEYE AREA (REA)** - Adjusted to 365 days of age. REA EPD is a prediction of total muscle and is based on live animal evaluation utilizing real-time ultrasound technology.

**% INTRAMUSCULAR FAT (%IMF)** - Adjusted to 365 days of age. This is a prediction of the percentage of intramuscular fat and is based on live animal evaluation utilizing real-time ultrasound technology. %IMF is an indicator trait of marbling in market animals.

**FAT THICKNESS (FT)** - A prediction of fat thickness at the 12th-13th rib and is based on live animal evaluation utilizing real-time ultrasound technology. Fat thickness is a major factor in calculating yield grade in market animals.

## ANGUS DOLLAR INDEXES:

**\$EN (\$ ENERGY)** - Expressed in dollars per cow per year, as an expected dollar savings difference in future daughters of sires. A larger value is more favorable when comparing two animals (more dollars saved on feed energy expenses).

**\$W (\$ WEANED CALF)** - Provides the expected dollar-per-head difference in future progeny pre-weaning performance in a multi-trait fashion, within a typical U.S. beef cowherd. As with any \$Value, \$W only has meaning when used in comparing the relative merit or ranking of two individuals.

**\$F (\$ FEEDLOT VALUE)** - An index value expressed in dollars per head, is the expected average difference in future progeny performance for post-weaning merit compared to progeny of other sires. \$F incorporates weaning weight (WW) and yearling weight (YW) EPD along with trait interrelationships.

**\$G (\$ GRID VALUE)** - An index value expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires. The \$G combines quality grade and yield grade attributes, and is calculated for animals with carcass EPDs.

**\$B (\$ BEEF VALUE)** - Beef Value (\$B) facilitates what almost every beef breeder is already seeking - simultaneous multi-trait genetic selection for feedlot and carcass merit, based on dollars and cents. \$B represents the expected average dollar-per-head difference in the progeny post-weaning performance and carcass value compared to progeny of other sires.

# General Information

## SALE DAY LOCATION

Columbia Livestock Market • (386) 755- 2300  
4557 S US Hwy 441 • Lake City, Florida 32024

## SALE DAY PHONE • (386) 755-2300

## SCHEDULE OF EVENTS

### Friday January 8, 2010

Bulls available for inspection

### Saturday January 9, 2010

11 a.m. . . . . Lunch

1 p.m. . . . . 10th Annual Lake City Bull Sale

## SALE HEADQUARTERS

Quality Inn and Conference Center (old Holiday Inn)  
US 90/I-75 • (386) 752-3901

## ADDITIONAL MOTELS

Hampton Inn • (386) 752-3419

Country Inn & Suites • (386) 754-5944

## TRANSPORTATION/ROOM RESERVATIONS

Should you need assistance please call Columbia Livestock Market at (386) 755- 2300.

## TRUCKING

For those furnishing their own trucking, cattle will be ready to load immediately after the sale. If anyone has a problem with trucking we will have private trucking available.

**EPD INFORMATION** • The Fall 2009 EPDs are listed.

## AUCTIONEER

Mike Cotton • (334) 588-3370

## SALE MANAGER

John Willis, Columbia Livestock Market  
(386) 755-2300 or (386) 288-8891

## MEDIA REPRESENTED

*Brangus Journal, Florida Cattleman, Cattle Today, Farm & Rancher, Georgia Cattleman*

## AIRPORTS

Lake City Municipal Airport – Private aircraft

Jacksonville International – 65 miles East

Tallahassee Municipal Airport – 100 Miles West

## TERMS & CONDITIONS

Please refer to the inside back cover of the catalog

# *Welcome to the 10th Annual Lake City Invitational Bull Sale*

Lake City, Florida is centrally located in North Florida at the intersection of I-10 and I-75. It is a natural location to provide producers of Florida, Georgia, and Alabama, a convenient meeting place to purchase and sell.

The sale will be in January to accommodate the needs of our producers for winter and spring breeding. We will have 55 Brangus bulls from seven Brangus breeders and 20 Angus bulls from one Angus breeder to round out a tremendous selection of black bulls.

One of our original consignors, Owens Brangus, has retired from the purebred business. For over 14 years he has offered quality Brangus bulls to our producers. We will miss his bulls but he will always be part of the family.

We welcome Char-No Farms and L&W Cattle Company as new Brangus bull consignors. Char-No Farm owners, Chuck and Norma Sword, are well known in our state for their past participation in the Hardee Farms Sales, always offering a stout set of bulls. Doug Williams of L&W Cattle Company and formerly with Whip-O-Will Brangus is also known for his quality top genetics throughout the South.

Again, we will grade these bulls prior to the sale with EPDs and ultrasound data available on most bulls. We are proud of this excellent selection of bulls once again this year! Producers are beginning to see the positive results of previous bull purchases from our past sale.

**We look forward to seeing you on Saturday, January 9, 2010!**

John D. Willis, Sale Manager  
The Willis Family and Columbia Livestock Market

## Lots 71-75

# Commercial Angus Bulls

Additional information available sale day.

*Notes*

# Caring For Your Newly Purchased Bull

Whatever system your bull has been evaluated in, young bulls do require an adjustment period prior to being used for breeding. This is referred to by some as a "hardening period." Others refer to it as a "let down" period.

Young bulls, especially those of breeding age, do require attention for continued growth and proper development. Regardless if they are home raised or newly purchased, proper feeding, care and management now will give your bull the opportunity to continue growing and allow him to develop into a sound and profitable herd sire.

Several management practices should be observed when newly purchased bulls are brought home. These practices can help ensure that each new bull has a long and productive future with good productive performance.

- *Have an area with fresh water and good quality hay to keep the bull(s) in upon arrival, so they will have time to settle down and become familiar with the surroundings.*

- *After allowing to drink water and eat hay, you may feed additional energy at approximately 1 percent of body weight.*

- *If you are planning to turn the bull(s) out with the cow herd upon arrival, bring the herd to a holding area and allow the bull(s) to return to the pasture with the herd.*

- *Avoid turning your newly purchased bull(s) in with an older bull. We must reduce the chance of injury.*

- *Consider limiting the number of females you want to settle during the breeding season to 20 the first year.*

- *Avoid excessive loss of body condition before or during the breeding season. You may want to rest him for 1 to 2 weeks depending on the breeding activity of your herd. If necessary, feed him additional energy if excessive loss in body flesh condition is noticeable. Hay and/or pasture alone will not provide sufficient nutrients to meet the requirements of young, growing, active bull(s).*

- *If there is one bull in the pasture, as he breeds the cows, record the breeding date. Non-return to heat is a good indication your bull is settling the cows.*

- *Treat for internal parasites at the end of the breeding season. Provide effective external parasite control as needed.*

- *Remember, bulls are guaranteed by consignors to be breeders only if they are managed correctly after the sale.*

Young bulls should be limited to a minimum number of cows to service. The number is decided by his age. The following guidelines can be used:

<b>Bull's Age</b>	<b>Number of Females</b>
12 to 15 months	10 to 12
15 to 18 months	12 to 18
18 to 24 months	18 to 25
24 months and older	25 to 35

Place young bulls in well fenced lots before and after breeding season to keep bulls away from cows in heat. There should be shade and plenty of clean water in each lot. Provide free-choice minerals and routinely treat for parasites.

# Terms and Conditions

Except for those stated in the below terms and conditions, there are no warranties, either expressed or implied, as to the merchantability or fitness for a particular purpose with respect to the cattle being sold at this auction. The warranties and guarantees set forth in the "Terms and Conditions" are in lieu of all other warranties, either expressed or implied, and the remedies provided therein shall be the sole and exclusive remedy of the buyer, or any party through the buyer for any breach of warranty or guarantee therein provided, and all other obligations of liabilities.

## **BIDDING**

Each animal will be sold to the highest bidder without reserve. The auctioneer in charge will settle any disputes as to the bids and his decision shall be final.

## **TERMS**

Terms of the sale are cash or check. Settlement must be made to the clerk at the conclusion of the auction.

## **PURCHASERS RISK**

Each animal becomes the risk of the purchaser as soon as sold; but will not be delivered until settlement has been made.

## **HEALTH**

All animals are eligible for interstate shipment and are from Tuberculosis free states and are certified Bang's free. A health certificate will be furnished on each animal leaving the state of Florida.

## **IDENTIFICATION**

Each animal sells with a legible identification corresponding to its registration.

## **LIABILITIES**

All persons who attend the sale do so at their own risk. Columbia Livestock Market assumes no liability, either legal or equitable for failure of title, health, registration, and lien status of the subject animals; and the consignors make no representations, either expressed or implied, as to whether or not the subject animals are security under any lien either legal or equitable.

## **BREEDING GUARANTEE**

All animals are guaranteed to be breeders with the exception of: (a) injury or disease occurring after the sale. (b) negligence or willful misconduct on the part of the purchaser. Any female is considered a breeder if she is pregnant at the time of the sale. Any bull which is either (1) settles 1/3 or more of

the healthy cows he serviced, (2) is the sire of 20 or more animals, (3) settles cows by natural service, or (4) produces viable semen and passes a fertility test made by a competent veterinarian during any six month trial period, shall be considered a breeder.

## **OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT**

(A) All claims for adjustment or return must be made in writing either within six months of the sale date or no later than six months after the animal reaches 18 months of age. (B) If a female sold as "safe in calf" proves not to be in calf, the purchaser may receive service from the bull previously used, if available. Or if the bull is not available, the seller shall be obligated to make satisfactory adjustment on the purchase price to the buyer, or at the buyers option, refund the purchase price upon the return of the animal to the seller in healthy condition. (C) Any animal that has not proven itself a breeder within the time limits specified above, if in healthy condition may be returned to seller at buyer's expense. The seller reserves the right and privilege of trying for a period of six months to prove the animal a breeder. If proven a breeder the animal will be return at buyer's expense. Should the animal fail to breed, the buyer, at his option, may either demand return of the purchase price or replacement of the animal with another of equal value. In case a pair is returned because the cow is determined to be a non-breeder, calf must also be returned. (D) Animals returned must have a veterinarian's certificate that they are healthy and free of Bang's and Tuberculosis.

## **RIGHTS AND OBLIGATIONS**

(A) The above terms and conditions of sale shall constitute a contract between the buyers and sellers of each animal and shall be equally binding upon both.

(B) Animals resold following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

## **ANNOUNCEMENTS**

All announcements on sale day take precedence over any printed material.

## **MAIL BIDS**

Phone, mail, or wire bids will be handled confidentially.
